## FEAR OGDEN BOND ISSUE IS EXCESSIVE

Refunded Securities Cause  
Company to Hesitate; Com-  
missioners Take Action.

Special to The Tribune.  
OGDEN, April 29.—Fearing that the city has exceeded its bonded indebtedness, the R. M. Grant company has hesitated about taking up the city bonds in the sum of \$100,000 recently refunded to them and their hesitation alarmed the commissioners to such an extent that resolutions were passed authorizing Mayor A. G. Fell to negotiate with the Liberty National bank of New York to protect the bonds and to pay them if they are not taken up when due on May 1.

Mayor Fell has been in communication with the Liberty bank for a number of days and has succeeded in making arrangements with the bank for the advancement of the amount of the bonds if necessary.

The Grant company has picked legal flaws in the refunding and has intimated that they would take no more than \$50,000.

The company was told that unless they accepted the entire amount, none of the bonds would be resubmitted.

IN NEED OF LABORERS.  
Increase in Acreage of Beets Near Ogden  
Requires More Help.

Special to The Tribune.  
OGDEN, April 29.—With his announcement that the farmers in the vicinity of Ogden have planted a total of 7000 acres in sugar beets as compared with 6000 acres last season, Job Pinckney, field superintendent of the Amalgamated Sugar company, urges that the best of the season be made for laborers to thin and harvest their crops.

He returned from a field trip and said that this week will mark the close of the planting season except in the few instances where the ground is so situated that it is still too moist.

General Manager L. R. Eccles, who has recently returned from a visit to the Cache valley, says that the season was slightly later than in previous years. The company, he said, will not order any improvements this year outside of those absolutely necessary to handle the beet crop.

Sheriff Is Seriously Ill.  
Special to The Tribune.  
OGDEN, April 29.—Because his condition continued to grow more alarming throughout the day, Sheriff E. E. Harrison, who is suffering from a severe attack of erysipelas, was removed from his home in the morning to the Berges hospital this evening. There is a fear that pneumonia is developing and his recovery is regarded as doubtful.

Working to Save Birds.  
Special to The Tribune.  
OGDEN, April 29.—Judging will be started tomorrow for the awards offered by the Ogden Historical society for the best essays by school children on the preservation of birds in Utah. According to the plan agreed upon by the judges, the essays in each grade will be submitted to the principal of each school, after which the principal will

## Yell Defiance at Blood Disorders

A Remedy That Has Shown a Most  
Remarkable Purifying  
Effect

At Last You Can Get Rid of Blood  
Troubles—S. S. S.

The word medicine is one of the most abused in our language. There are certain medicinal properties just as necessary to health as the food we eat. Take, for example, the well-known tonic medicine S. S. S. This famous blood purifier contains medicinal components just as vital and essential to healthy blood as the elements of wheat, roast beef, and the sugars that make up our daily ration.

As a matter of fact, there is one ingredient in S. S. S. which serves the active purpose of stimulating each cellular part of the body to the healthy and judicious selection of its own essential nutriment. That is why it regenerates the blood supply, why it has such a tremendous influence in overcoming eczema, rash, pimples, and all skin afflictions.

And in regenerating the tissues S. S. S. has a rapid and positive antitoxin effect upon all irritating influences that cause rheumatism, sore throat, weak eyes, falling hair, loss of weight, thin, pale cheeks, and that weariness of muscle and nerve that is generally experienced as spring fever. Get a bottle of S. S. S. at any drug store, and in a few days you will not only feel bright and energetic, but you will be the picture of new life. S. S. S. is prepared only in the laboratory of The Swift Specific Co., 137 Swift Bldg., Atlanta, Ga., who maintain a very efficient Medical Department, where all who have any blood disorder of a stubborn nature may write freely for advice and a special book of instruction. S. S. S. is sold everywhere by drug stores, department and general stores.

### UTAH FIRE CLAY COMPANY.

Meeting—Amendment.  
Notice is hereby given that a meeting of the stockholders of Utah Fire Clay company will be held at the Deers National Bank in Salt Lake City, Utah, at 1 p. m. on May 1, 1913, for the purpose of considering whether or not Article VIII of the articles of incorporation of the company shall be amended to read as follows:

"VIII.  
The capital stock of this corporation shall be one million dollars (\$1,000,000) represented by ten thousand shares of stock each of the par value of one hundred dollars (\$100.00). Eight thousand shares of said stock are fully paid. Two thousand shares not fully paid shall be held as treasury stock and can only be disposed of by a majority vote of the directors. Two thousand shares of fully paid stock may be disposed of by the directors in the manner and when they think best."

LAWRENCE GREENE, President.  
Dated April 15, 1913.

## 'MORMON PIONEERS' SHOW OF RECORD

Levi Edgar Young Delivers  
Address Under Direction of  
Unitarian Society.

"The Mormon Pioneers" was the subject of a lecture by Levi Edgar Young in Unity hall last evening. The address was under the direction of the lecture committee of the Unitarian society. Mr. Young first took up the character of the Utah pioneers and their motives for coming into the far west. He said:

The company under Brigham Young that crossed the trail was well organized. It was a pure democracy in that all the men and women understood law and order, and were obedient to the same. On their way as well as in the early settlement of the mountain valleys, the Teutonic character of the government was developed, and everything of importance pertaining to the welfare of the company was voted upon in a meeting, a representative folk-moot.

Utah was most fortunate in the character of her colonists. Splendid types of Americans, the pioneers carried with them into the west the idea of home, the church, civil life and the school, and planted in the desert those institutions that are conducive to the highest standards of civilization. The emigration into the far west did not have as a motive force commercial adventure, nor for the finding of hidden wealth in the earth, but their aims were higher, for they were filled with the desire of founding a commonwealth based upon religion and learning, and where they might put into practice their economic and civic ideals. Unlike the typical frontiersmen, the Utah colonists were refined and many of them had received scholastic training in the best American schools. They bent their unremitting efforts to the conquering of the soil, and in a few weeks after their arrival, the American desert was gradually being transformed into beautiful private gardens.

The economic and civic history of Utah, together with the social and intellectual development, is one of the phenomenal movements in American history. The land was reclaimed, the best institutions of the west were fostered by the hard work of the pioneers, the drama was encouraged, and a first-class theater built, schools were built by public taxation, and the home was made the center of the lives of their children.

Mr. Young read from some of the old journals some of the early struggles of the pioneers and their tolls and sorrows, and by reading the history of Utah is the story of good homes, where parents have been just, temperate and kind, and where everything has been done to make life a blessing to the people. Religion to the Mormons has been a constructive force, for it has directed the people to the work, and has affiliated itself with the home, the material pursuits of life and all the social forces in our history."

## TURN DOWN BONDS TO BUILD SCHOOLS

Second Special Election in  
Davis County Results in  
Decisive Defeat.

Special to The Tribune.  
KAYSVILLE, April 29.—That Davis county will not this year expend any considerable sum of money in the construction of new public school buildings, was indicated decisively by the special bond election held today. The question was the voting of a special bond issue of \$150,000 for the purpose of erecting new school buildings.

At a late hour tonight returns from eleven out of twelve voting precincts gave: 641 for; 110 against. The missing precinct, which is within telephone connection, is a small one, which cannot materially change the count.

This is the second election held on this question. The first special election was held on March 19, and the official count resulted in a tie vote—492 for, 492 against. The results of today's election would have been adopted and the bond issue "got busy" while its advocates merely held their own. There was much interest manifest and many rigs were in evidence.

Some of the returns are deeply significant. East Bountiful, which reasonably expected a new high school in the event of success, cast 184 votes for an against 90 in opposition. Syracuse, which held the same hope, gave 48 for, 10 against. In direct contrast was the vote of Layton, 5 for, 188 against the proposed bond issue.

## HIGH WIND CAUSES LARGE FIRE DAMAGE

Poplar Grove Chapel Is Total  
Loss; Blaze Probably Started  
by Locomotive Cinders.

The combination of fire and wind resulted in swift destruction of property yesterday morning. The Poplar Grove chapel, valued at \$5000, catching fire from cinders blown from a locomotive smokestack, it is believed, was burned until only the walls were left standing. So furnace-like was the blaze that residences in the neighborhood were protected from ignition only by an active volunteer crew of citizen-firemen.

The run was a long one for the department, and the roof fell in as the apparatus arrived. The building stood at Twelfth West street and Indiana avenue. The building was not insured.

Shortly before the Poplar Grove fire, a lively blaze threatened to burn the roof from the very head of Justice P. M. Bishop, 1642 Major avenue. On, rather, the roof was threatened by the fire. The fire was out on the roof when he was climbing a long ladder with a pail of water in his hand. Mrs. Bishop, meanwhile, stood in the hallway pleading over the telephone with some one at headquarters to come and lend a hand. She was told that the fire was outside the limit entitled to protection by the department.

Going out of the house, Mrs. Bishop summoned several men who happened to be passing and drafted them into service as a bucket brigade. Then she returned to the telephone to have the last word. Instead, she got Chief Bywater and the apparatus was soon finishing the work begun by the men with buckets.

## ELDERLY LAWSUIT COMES TO SURFACE

CHICAGO, April 29.—A lawsuit older than many a man who voted for President Wilson came to the surface for the first time in Judge Landis's federal court today, not another postponement, and not a dismissal.

The suit is twenty-three years old. The case involves claims for \$8000 damages for the death of sixteen men when the blew up July 11, 1890. It came up for argument today on a technical point and a postponement of a month was asked and granted.

"I think a month is reasonable alongside of the twenty-three years this case has lived," said Judge Landis. "I have had it on my docket alone for nine years."

"Equealer" Is Killed.  
NEW YORK, April 29.—Suspected of "swindling" to District Attorney Whitman, Jerry Maida, known as Jerry the lunchman, met his appointed death on forty-first street near Broadway early today. He was shot down by gangsters who sent five bullets into his body. The shooting occurred only a couple of blocks away from the scene of the murder of Herman Rosenthal last July. Five policemen heard the shots and pointed upon five men whom they accused of the killing.

## This Is Independence Day; A \$5060 Start in Life!

Why Work for \$985.00 When You Can  
Play for It—And Win It, Too.

Generally we go jogging along in our daily rut in life, with heads to the ground, and no prospect of joy except perhaps the hope of beating the land-lord out of his rent next month.

But once in a while we get an inspiration—something that heartens us! That is the sort of suggestion The Salt Lake Tribune is about to make right now. Hold your breath and we will release it.

Win \$985—represented in a touring car—by playing a game!

Solve 77 pictures, each of which represents the title of a book. The 77 pictures are appearing in this newspaper at the rate of one a day. They comprise what is called the Booklovers' Contest Game.

Those coming closest to naming the 77 book titles represented by the 77 pictures will get the awards. That's all there is to it.

You can win first prize in this contest game. No book knowledge is required, for you may obtain all the 77 correct titles in the catalogue, which is a list of 5000 book titles, arranged in alphabetical order. Use your common sense, figure out what sort of book titles the pictures MUST have been drawn to represent, and then look through the catalogue to see whether or not one of the possible titles you have thought up is listed there.

Make your answers, if you wish, in the Answer Book—a book containing 77

## FAMOUS ANIMALS BURNED TO DEATH

Fifteen Thoroughbred Mares and Their  
Foals Perish; Monetary Loss Estimated at \$50,000.

LEXINGTON, Ky., April 29.—Fifteen world-famous American and English-bred thoroughbred mares, each with a foal by her side, were burned to death in a fire which destroyed a barn at the Kingston stock farm near here today. The fire is believed to have been of incendiary origin. Included in the horses burned were many winners of great racing events. The monetary loss is estimated at \$50,000.

Horses destroyed were: Running Stream, Forbidden Fruit, Cassandra, Flower of the Forest, Jessanta Ladams, True Love, Pretty Half Crown, the only mare in America by the English stallion, Cymene; Degree, Mayfair, Fealty, Harp's Chord, Flying Ship and Despa.

## ANOTHER REVOLUTION ON TAPIS IN CHINA

LONDON, April 29.—The Peking correspondent of the Daily Mail sends the following dispatch:

"The senate has rejected the five-power loan contract. No excitement has been aroused here, but there is great tension at Shanghai, where Dr. Sun Yat-sen, the president of the provisional government, and other leaders have been calling for purchase arms for their party to the amount of millions of dollars. The senate is conspiring to start another revolution, which would provoke foreign intervention and end China's independence."

## QUESTION OF TOLLS HAS BEEN POSTPONED

Panama Matter Will Not Be Considered  
at the Present Extra Session  
of Congress.

WASHINGTON, April 29.—By a vote of 13 to 1 the senate canal committee today decided to put over to the regular December session of congress all questions of Panama canal tolls, including the Senator Root amendment to repeal the free passage provision Panama law. Senator Brandegee voted against it. Before the vote was taken Senators pointed out that the Democrats were committed to tariff and currency legislation at the extra session, and that they would have enough to do to legislate on those subjects.

The overwhelming vote by which the committee agreed to the motion was taken to indicate that there would be no action on the tolls question for several months unless President Wilson chooses to exert his influence to have it reopened. Some senators today considered it doubtful if the president would cause the committee to change its mind unless there were new and pressing developments in the negotiations between the state department and the British foreign office.

## HARVESTER COMPANY HAS COMPETITION

SIOUX FALLS, S. D., April 29.—The International Harvester company has competition in the northwest according to fifteen farmers and implement dealers here this afternoon, testifying in the state to the government anti-trust suit against the harvester company. Two independent harvester companies and the Minnesota prison blinder plant were named by witnesses as competitors of the International company. Farmers and dealers declared that farm machinery from all plants is greatly improved over products of a few years ago.

General agents of the harvester companies are expected to testify at the end of the week. They will present figures on sales and prices and relations with competitors.
